prices at which it had been offered for sale.

Work May Proceed.

Under the law governing such condemnation proceedings the city has thirty days in which to appear before the Hustings Corrt and take appeal proceedings. It may, however, deposit the money to the credit of the court, take possession of the property at once, and proceed with the crection of a new bridge without awaiting a final decision from the Virginia Supreme Court. It has not as yet been determined whether the city will accept the price offered or make a contest. In any event, it can at once take possession of the old structure and make preparations for the concrete plers and abutments, for which plans and specifications and bids will be shortly invited, the City Engineer being now at work on a list of the preliminary requirements.

Question of Ownersbip.

Members of the Council have expressed some curiosity as to who are the chief stockholders of the Mayo I Land and Bridge Company, and it may arise when the question comes up of appropriating the money for the bridge, there having been persistent rumors for some time past, in fact since just before the annexation of Manchester, that large blocks of the stock formerly held in New England were purchased by Richmond people, in the hope that the annexation of conditionance would pass, and that they might then be in a position to sell the old bridge to the city.

ALL ARE ELECTED

New York, November 10.—Practically complete returns from interior counties of the State confirm previous indications that all of the Democratic candidates on the State ticket were elected. These, in addition to the candidates for Governor and Lieutenant-Governor, are:

Secretary of State—Edward Lazansky,
State Comptroller—William Sonmer,
State Treasurer—John J. Kennedy,
Attorney-General—Thomas Carmody,
State Engineer and Surveyor—John A. Benzel.

peals—Frederick Collin and Irving G. Vann.

The returns on these State officials are not yet complete for six counties, but an estimate based on 2,700 election districts outside of New York City and complete returns of New York City give the results above stated. The smallest indicated plurality is, that of Lazansky for Secretary of State, who has 8,856 over Koenig, Republican, and the highest that of Kennedy, for State Treasurer, who has 26,332 over Fennell, Republican.

Late returns indicate that Conway, Democrat, for Lieutenant-Governor, has a plurality of 30,000 over Schoeneck, Republican.

Majority Is Reduced.

Memphis, Tenn. November 10.—Reurns from additional counties in East

PARKER REFUSES

New York, November 10.—Judge Alton B. Parker authorized the following statement to-night:
"I am not unappreciative of the fact that many good people favor my selection as a candidate for the United States Senate to succeed Dr. Depew. I am, indeed, most grateful to them for thus suggesting a most attractive opportunity for useful public service, but my obligations are such that I would not accept the office, even if it should be tendered to me."
